# BLADE

**CUT CO<sub>2</sub> AND AIR POLLUTION  
CUT FUEL CONSUMPTION**

**ONLY  
PRODUCT  
TO EXCEED  
EPA 511  
GUIDELINES**

**REDUCE CO<sub>2</sub> EMISSIONS UP TO 12%**

**INCREASE FUEL ECONOMY UP TO 12%**

**CAPTURE EMISSIONS OF TOXIC PARTICULATE MATERIAL**

\*BLADE's EPA 511 testing was conducted at an EPA accepted, California Air Resources Board licensed, independent testing laboratory.

BLADE attaches easily to the tailpipe of cars, SUVs, light duty trucks and hybrids to reduce CO<sub>2</sub> up to 12%, capture toxic particulate material (PM) and increase fuel economy up to 12%.

Particulate material (soot) is an air pollutant known to cause grave environmental and human health consequences including acid rain, smog, cancer, asthma and increased mortality. CO<sub>2</sub> is a potent greenhouse gas and is the primary cause of manmade global warming.

Environmentally responsible cities, fleets, celebrities and activists are using BLADE to reduce their carbon footprint and improve their communities' air quality while enjoying the added benefit of lower fuel costs.

BLADE has been featured by The Discovery Channel, National Geographic, NBC, ABC, The Washington Post, The Boston Globe and other leading media.

BLADE is the only product ever scientifically proven to work across a fleet of vehicles using the EPA 511 Protocol. BLADE's testing was conducted at ATDS, an independent EPA accepted, California Air Resources Board (CARB) licensed laboratory.

- ✓ **Passenger Cars**
- ✓ **Hybrids**
- ✓ **SUV's**

\* Fits on all vehicles with 1 7/8" - 2" tailpipe  
 \*\* Vehicles with dual exhaust pipes require 2 BLADEs; vehicles with exhaust pipes larger than 2 1/8" in diameter may require 2 BLADEs and a Sabertec Y Adapter

NEW BLADE CARTRIDGE

USED BLADE CARTRIDGE  
With 28.7 Grams of  
Captured Particulate Material

Sabertec recommends changing BLADE's cartridge every 8,000 to 10,000 miles. BLADE's patented pressure release (V-cut) design allows it to work without causing backpressure

**Using BLADE is an act of environmental responsibility. Display your Eco Optimized Badge proudly above your BLADE.**

**Blade Your Ride... because you should feel good about what you drive.**
